

Heating Element For Bidet

Heating Element For Bidet produced by implementing ceramic lamination processes. Due to the compactness, high power and rapid heating speed .Ceramic Heater can provide higher reliability than ever before. Mainly applications include use as innovative types of heaters in the automotive, medical and semiconductor industries.

Model:G94115SC

Heating Element for Bidet

Heating Element For Bidet produced by implementing ceramic lamination processes. Due to the compactness, high power and rapid heating speed .Ceramic Heater can provide higher reliability than ever before. Mainly applications include use as innovative types of heaters in the automotive, medical and semiconductor industries.

Process of Heating Element For Bidet

Internal Heating elements are protected from oxidation due to sintering into one-piece ceramic body structure.

Parameter of Heating Element For Bidet

Configuration and Dimension							
Shape	Dimension	Tolerance		Tolerance		Tolerance	Resistance Tolerance
Plate	Length (mm)		Width(mm)		Thickness(mm)		
	10~120	① ≤20+/-0.3 ② ≥20+/-1	2~60	① ≤20+/-0.3 ② ≥20+/-1	0.55~2.0	① ≤1+/-0.1 ② ≥1+/-0.15	+/-10%
	length		Diameter				
Rod	8~121	① ≥30mm:+/-0.5 ② 30~100mm:+/-1.0	2.5~8	① ≥5mm:+/-0.1 ② 5~9mm:+/-0.2			+/-10%
Tube	8~121	③ ≤100mm:+/-1.5	2.5~20	③ ≤9mm:+/-0.3			+/-10%

Inspection standard

To ensure the quality of products, the in-process inspection and sampling inspection should be taken which based on the regulation of National GB/T 2828-2003.

Part 1.Sampling inspection of AQL standard.

In-process inspection VS Sampling Inspection

Inspection items	In-process inspection	QC sampling inspection	
		Inspection level	Acceptable quality level (AQL)
Appearance	100% inspection	II	1.0
Straightness	100% inspection	S-4	1.0
Dimension	100% inspection	II	1.0
Power-on Test	100% inspection	II	0.40
Dielectric Strength	100% inspection	II	0.65

Heating Element For Bidet Application

Electronic cigarette, vaporizers, coffee machine, Intelligent toilet, instant electric kettle, instant water heater, intelligent basin faucet; hair straightener, hair curler, car exhaust oxide sensor, heating for industry device, ultrasonic heating element, mold heater, medical equipment heater ,air heater, small household appliances, etc.

FAQ

1. Q:Are you a manufacturer, trading company or a third party?

A:We are a manufacturer(factory).

2. Q:How can i get to your factory?

A:Train or Airplane is best choice.

Our factory is near Xiamen Airport and Railway station, we can pick you up there.

3. Q:If i will need to stay in your place for few days, is that possible to book the hotel for me?

A:It's always my pleasure, hotel booking service is available.

4. Q:What is your minimum order quantity, can you send me samples?

There is no MOQ for already heating elements.

Free Samples can be offered,but you need to pay the delivery charge.
